OPC Form 814 - 18 December 1950

SECRET

ATTACHMENT NO. 13

2462 CFS

1. PROJECT: BGFIEND (in HTSTEIN only)
2. AUTHORIZED DURATION: Indefinite
3. ORGANIZATIONAL DATA: None
4. SUMMARY OF ACTIVITY: 1951

A. On 3 December, [ ] and [ ] drove to BGHABIT to pick up Identity (1), the KMWAAHOO prisoner being released after 14 months imprisonment as a BGGYPSY suspect. Due to the fact that charges of being a BGGYPSY-cell were not proven against him, it was decided by [ ] to let him go. He was given some money and brought to HTEXOTIC by the undersigned, with instructions to meet the next evening to pick up necessary documentation. He failed to show up and this office was notified several days later that he had been picked up by the JBHOMER officials. Their method of dealing with such cases is to hold the man for six weeks and then assign him to a Refugee Labor Camp in northern JBHOMER where he would be held indefinitely on the JBHOMER economy. The writer informed BGHABIT of this latest development and they pointed out that the prisoner's chances of returning from there would indeed be very slim as the penalty for crossing from one zone to another is high. It was the opinion of DTEIDER and the undersigned that this turn of events should prove an effective solution to the immediate disposal problem.

B. On 4 December, KMFARCE informed us that the six KMWAAHOO tuberculars at JEPARSONS were eligible for assistance and were transferred to JBHOMER hospitals at the care and expense of KMFARCE. The seventh tubercular, Identity (2), who had been at Identity (3), was received and placed temporarily at JEPARSONS. The writer notified KMFARCE and, as he is "within the mandate", he will be transferred to the JBHOMER economy and placed in a sanatorium. The actual transferring of this seventh (and last) T.B. man will take place January 7. KMFARCE has given this office letters of transfer removing them from JEPARSON rolls and, therefore, off our hands.

C. On 6 December, the writer went to DTEIDER to obtain ZASEDAN clearances for [ ] and [ ] for entrance to the ZASEDAN Intelligence School at Identity (4). [ ] on his visit in November, requested [ ] enrolled and also [ ], whom he was sending from LCDRINK for the course. The proper officers at the HTEXOTIC ZASEDAN Post were contacted and, through

their Field Manual, undersigned learned what equipment and clothing would be needed. This matter was taken care of through considerable effort and pains by all the staff of this BGFIEND station as only part of the required clothing was obtainable here and the rest had to be secured from BGMIIDDY.

C. I arrived in HTEXOTIC 30 December, was met by            and writer and taken to Wangness Estate, where he remained until the course began January 2. The writer received excellent ZASEDAN cooperation throughout and the staff volunteered to supply additional instruction in specialized combat intelligence; photo interpretation, prisoner interrogation, and evasive tactics.

D. On 8 December, due to indecision regarding the purchase of the Wangness Estate, the writer cabled the owner and his lawyer postponing purchase, but offering to increase the rent from 1,225 DM's to 2,000 DM's monthly and extending the present lease to April 30, 1952, with an option to purchase at \$70,000 with \$35,000 cash in dollars, balance \$35,000 countervalue in blocked Marks, sharing equally cost Sales Tax. Reger T. Wangness cabled back that this was acceptable and he, accordingly, would instruct his lawyer to draw up an Amendment to present lease for our attorneys' approval. Writer has an appointment with the lawyer for next Wednesday, January 9.

E. Arrangements were made with ZASENATE to send the 4 W/T's to LCDRINK on 29 December.            and            accompanied the 4 KMWAAHOOS in a daylight operation and bearded them on the airplane, with            going along as escort.

F. Identity (5), the KMWAAHOO formerly with VALUABLE on Identity (3), arrived in HTEXOTIC 20 December. He was met by            via clandestine arrangements, subsequently put in contact with            who escorted him to JBPARSONS where he will carry on the duties of instructor.

G. The problem of a replacement for            as Commanding Officer of JBPARSONS is not solved yet. ZASEDAN DTEILDER informed the writer that a replacement could be supplied through local staff personnel or new officers soon to arrive under T/C quota but, upon contacting Identity (6) in final step, writer was informed proposal would be blocked for following reasons:            I's inability to maintain the prescribed military standards needed for his position, and his inflated sense of self-importance. Identity (6) is

most unwilling to exchange any one of his officers and get [ ] in return. It seems, therefore, that this replacement will have to come through ZRMETAL recruitment.

H. Approval was granted by ZRMETAL to transfer two KMWAAHOOS from JBPARSON for training assignment ZRELOPE. The two men were approached by [ ] to ascertain if they were interested in leaving this area for some time and enter upon this special training program. At first they appeared somewhat indifferent to the proposal. After several conversations, they agreed to reconsider the offer stating, however, that they would be unwilling to commit themselves until they had received a statement of approval from [ ] in HTNEIGH. [ ] was informed of this development and request by cable, but no word has been received from TPCREDO as yet. V. E. [ ]

ACTION PENDING, FIELD: *Wangness* *LCdrink*

A. Once a go-ahead signal is forthcoming from LCLAVER, the 23 KMWAAHOOS can be transferred from LCDRINK to JBPARSONS.

B. Awaiting word from [ ] that [ ] in HTNEIGH has given his approval to 2 KMWAAHOOS to enter ZRELOPE training program.

ACTION PENDING, HOME OFFICE:

A. Decisions involving the tentative purchase of the Wangness Estate.

B. Recruitment by ZRMETAL for a replacement of [ ] as Commanding Officer of JBPARSON.

INDICATIONS OF EFFECTIVENESS:

A. The entrance of two civilians, [ ] and [ ] into ZASEDAN Intelligence Course which took considerable time and effort on part of writer, but which offers every indication that it will pay off in future training courses. A good liaison working basis with the School Instructors has been established.

B. The disposition of prisoner, Identity (1), in an effective and conclusive solution.
